Who we are

David Howse

Ali Emirlioglu  Sam Guo
Who we are not

MORDAC, THE PREVENTER OF INFORMATION SERVICES.

SECURITY IS MORE IMPORTANT THAN USABILITY.

IN A PERFECT WORLD, NO ONE WOULD BE ABLE TO USE ANYTHING.

To complete the log-in procedure, stare directly at the sun.
What we do

• Incident investigation
• Security advice
• Firewall management
• VPN Service
• SSL certificates
• Vulnerability scanning
• Tripwire
Incident investigation

- Notifications and alerts
- Investigation and resolution
- Confidential and sensitive
Security advice

- User education
- Policy input
- Security reviews
Firewall management

• Manage delegated firewall infrastructure
• Advise local areas on architectures
VPN Service

• anubasic
• Local area VPNs
SSL Certificates

- SSL Server certificates
- Coming soon – Extended Validation
Vulnerability scanning

• Scheduled
• On-request
Tripwire

- Change detection
- Compliance checking
- Log aggregation and monitoring
What we're working on

• DSD Top 35 mitigations
• Mobile device management
• Data identification and classification
DSD Top 4

1. Application whitelisting
2. Application patching
3. OS Patching
4. Minimise privileged users
Mobile device management

- Identify requirements for mobile access
- Encryption
- Remote wipe
- Separation of user and ANU data
Data classification

• What's out there?
• What's important?
Questions and discussion

• Over to you!
